## Green Valley / Atascadero Watershed Public Meeting

### **Please Join Gold Ridge RCD Staff and John Green (PWA) for a Roads Assessment Public Meeting**

Gold Ridge RCD will discuss an exciting opportunity to have your roads assessed. The assessment will allow Gold Ridge RCD to pursue funding for road repairs that will reduce the amount of sediment entering local streams.

Staff from Pacific Watershed Associates will discuss the assessment process, methods used in road repair, and describe how properly designed roads can reduce maintenance time and costs for landowners.

This meeting will be a great opportunity to sign up for the program, ask questions about road assessments, upgrades, and effects of excess sediment in your stream.

**This meeting is free, open to the public, and handicap accessible.  
RSVP's are appreciated but not required.  
Goodies will be provided!**

The roads assessment is funded by grant programs from the California Department of Fish and Game and the Sonoma County Water Agency
